

Complete Electromobility Solutions

42 partners joint forces to support the deployment of the mass market for electromobility

Green eMotion

- Development of an European framework for electromobility
- Connection of national / regional projects (demo regions)
- Market place and IT solutions
- Interoperability and standards
- Overall goal is a clear picture how the European electromobility should look like and what the best way is to get the mass market started

Dr. Heike Barlag, Siemens AG
