

# Clean Logistics

- Occupancy
- Efficiency
- Flexibility
- Emission
- All modalities
- High frequent
- Reliable
- Shuttles

**‘Sychromodality’**

## European Gateway Services

- Connect inland terminals with deep sea terminals by means of high frequent rail / barge shuttles on the main logistics corridors and bundle cargo
- Reliable integrated secure lanes and networks of maritime and continental cargo
- Network of 3 deep sea and 7 inland terminals, with multiple daily departures, transporting 219,000 TEU in 2010
